

INASCO has been selected as a National Champion representing Greece in the prestigious European Business Awards competition 2015/2016, in the category “The Business of the Year Award with Turnover of €0-25m”.

Athens, 04.09.2015: INASCO has been awarded the status of National Champion for Greece, in the European Business Awards sponsored by RSM; a competition supported by businesses leaders, academics, media and political representatives from across Europe. The awarded distinction of “National Champion” was in the category “The Business of the Year Award with Turnover of €0-25m”.

The judges for this award category looked for outstanding companies that best demonstrated exceptional financial returns, strong growth and innovation strategies, market leadership in their sector, ethical credentials, good stakeholder relationships and long term planning balanced by the flexibility to deliver consistent results in dynamic market conditions.

Dr. Christos Kiriazoglou, Director of Business Development & Marketing of INASCO said: “We’re thrilled to be selected to represent Greece as a National Champion. The European Business Awards is widely recognised as the showcase for Europe’s most dynamic companies; we are now looking forward to the next round of the judging process where we can explain our strategies as well as our technological and business achievements, in the increasingly demanding and dynamic global Aerospace market.

Dr. Dimitri Bofilios, CEO of INASCO said: "We are honoured that we were named as National Champions for Greece from the judging authorities of the European Business Awards; a result of our hard work and team effort. A special thanks to all my colleagues for their dedication and passion for Aerospace; this award is an even greater achievement, considering the trying and difficult times for us all".

Adrian Tripp, CEO of the European Business Awards said: "Congratulations to INASCO and all the companies that have been selected to represent their country as National Champions, they play an important part in creating a stronger business community."

About INASCO: INASCO is a Greek high-tech company, established in 1989, active in the international Aerospace & Composites markets. We have a proven 25-year-long track record in offering innovative technological solutions to our partners: the "market-leading" Primes and Tier-1 aircraft manufacturing companies of the European Aerospace & Composites markets. Our core competences are in (a) Aerostructures (Jet-Engine Nacelles/ Nozzles and Wing-Wing Box components), (b) Composites Process Monitoring family of technologies (Sensors, Software, Complete Systems) for Autoclave/Out-of-Autoclave Production, (c) Space systems (Satellite Structures and High-Precision Mechanisms, Power Electronics for Electric Propulsion), (d) Technology Development (Low Earth Orbit Platforms, Sensor Networks, Next Generation Nano/ Graphene Composites).

About the European Business Awards: The European Business Awards now in its 9th year engaged with over 32,000 business from 33 European countries this year and 678 companies from across Europe have been named today as National Champions; going through to the second phase of the competition. The next round requires the National Champions to make a presentation video, telling their unique story and explaining their business success. In the 2014/15 competition, all EU member markets were represented plus Turkey, Norway, Switzerland, Serbia, Croatia and the Former Yugoslav Republic of Macedonia. Their combined revenue exceeded €1.5 trillion, and together they generated profits of over 60 billion Euros and employ over 2.5 million people. The National Champion videos will be made public on the European Business Awards website www.businessawardseurope.com as part of a two stage public vote, which will decide the 'National Public Champions' for each country. Last year over 170,000 votes were cast as companies from across Europe were publicly supported by their clients, staff and peers, as well as the general public.
